FRENCH PEOPLE ARE ELATED BY U. S. ATTITUDE

Paris Receives Viviani and Gen. Joffre With Wild Cheers

SATISFIED WITH PART WE WILL TAKE IN WAR

Viviani Carried Personal Letter From Wilson to Poincare

(ASSOCIATED PRESS TELEGRAM)

Paris, May 23.—Enormous crowds, cheering tumultuously, welcomed the French mission to the United States, on its arrival here from America. Premier Ribot, Minister of the Interior, Meilly and other members of the cabinet were at the station to welcome the envoys.

"Why, this is like New York," said Marshal Joffre as the automobiles which conveyed the members of the mission from the station were halted on account of the density of the cheering crowd. The police lines were broken through by the throngs of spectators who surrounded the automobiles waving flags and handkerchiefs.

Premier Ribot congratulated the members of the mission upon the results of their trip to America as did the other cabinet members. Various generals and admirals were at the station to meet their respective chiefs as well as numerous members of parliament. All the way from Brest, at Le Mans, Levalle, Rennes and Chartres, crowds filled the stations and M. Viviani and Marshal Joffre received deputations of the principal authorities. After the official reception was over M. Viviani, discussing his departure from Washington, said:

"I told President Wilson how deeply touched I was by the manifestations of the sympathy of the American people. The President replied simply: 'We are brothers in the same cause.'"

All the members of the mission have returned to France satisfied with the results of their trip. They were delighted with the courtesy of the President, the warmth of the public reception and the good will toward France shown wherever they went. They brought away with them the conviction that America would play a part in the war commensurate with her greatness. President Wilson, in saying goodbye, gave M. Viviani a cordial letter to President Poincare of considerable length.

U. S. STEEL WILL BUILD SHIPYARD LARGEST IN WORLD

New York, May 24.—The United States Steel Corporation has purchased a big acreage near Newark, N. J., in the meadows of that state within striking distance of deep water and will erect immediately one of the largest ship yards in the world, where standard 8,000 and 10,000 ton steel ships will be constructed, probably with the co-operation of the government shipping board. It is reported the construction of the new plant was requested by the government.

Elbert H. Gary, chairman of the board, stated that the corporation had recently purchased a large plot near Newark.

It is understood that the American Bridge company, one of the corporation's largest subsidiaries, will be given over to the manufacture of standardized units which will be shipped to the yard and there assembled.

BRITISH TRANSPORT TORPEDOED SHIP'S CAPTAIN AND 412 DROWNED

(ASSOCIATED PRESS TELEGRAM)

London, May 24.—The British transport Transylvania was torpedoed on May 4 with the loss of 412 persons. The Transylvania was torpedoed in the Mediterranean. The following official statement was given out today:

"The British transport Transylvania, with troops aboard, was torpedoed in the Mediterranean on May 4, resulting in the following losses: 29 officers and 373 of other ranks; also the ship's captain, Lieutenant S. Brenell and one officer and nine men of the crew."

The Transylvania, an Anchor Line steamship of 14,315 tons gross has been in the service of the British government since May, 1915, when her sailings were cancelled. There have been no recent reports of her movements. When she was first taken over by the British admiralty she was engaged in transporting troops of Gallipoli.

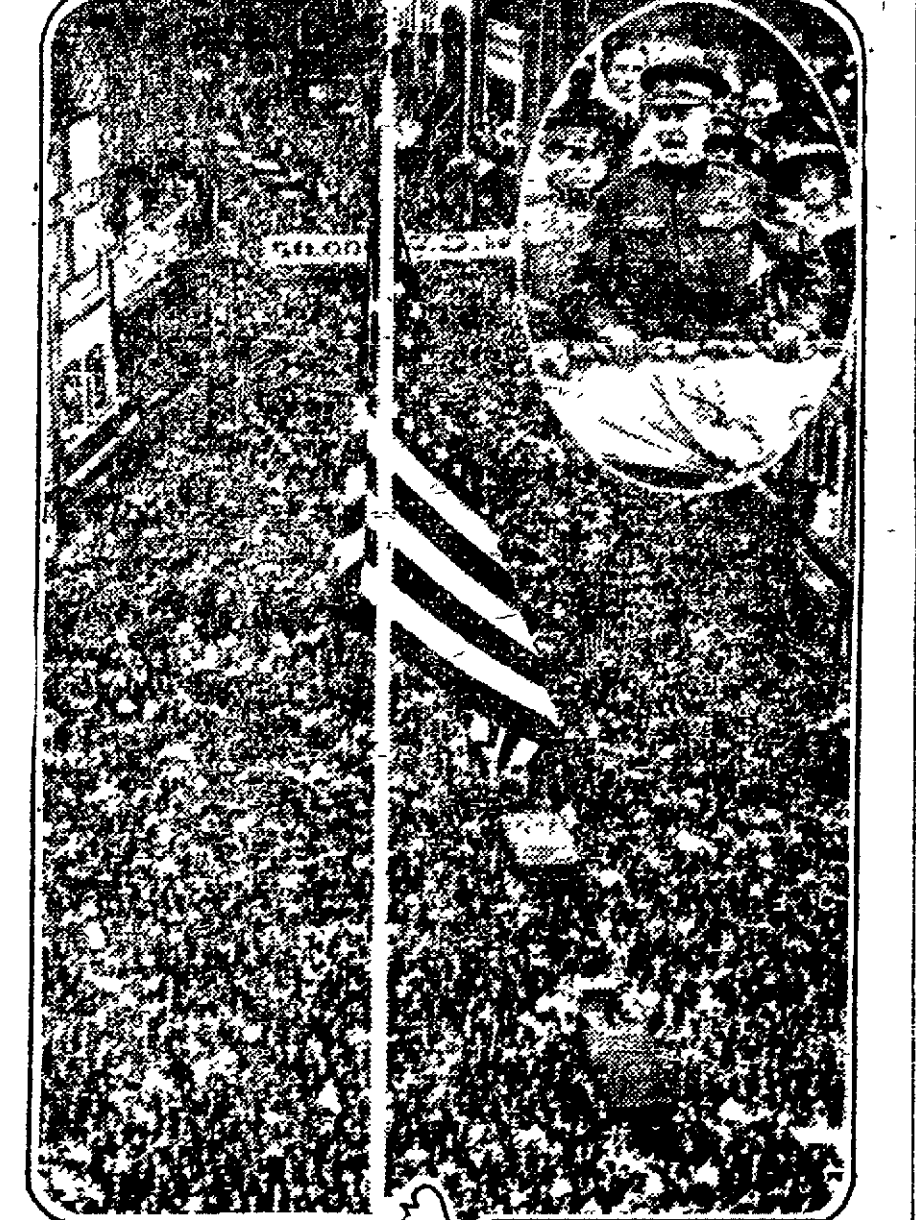

The Transylvania was built in 1914. She was constructed especially for passenger traffic between New York and Mediterranean ports. She was 548 feet long and had accommodations for 2,450 passengers.

Paris, May 24.—It is officially announced that the French liner Sontay, bound for Marseilles from Saloniki with 344 passengers, was torpedoed on April 16 with a loss of 43 lives. The steamer sank rapidly in a heavy sea but the prompt and methodical manner in which the small boats were launched saved the majority of those on board. Captain Mages went down with the ship.

The Sontay was a vessel of 7,247 tons and was built in 1908. She was owned in Marseilles.

LET'S PRESENT EACH SOLDIER A SUITABLE BADGE OR MEDAL AS GIFT FROM THIS COMMUNITY

A badge or medal, suitably engraved, presented by the people of this community to every lacking county boy who gives his service to his country in this time of war. This suggestion has met with widespread endorsement as is indicated by many letters or words of approval that are coming to the Advocate. During the day many messages have been received by telephone, people have spoken words of approval to the Advocate reporters and many have sent written endorsement of the idea. Nowhere has a word of discouragement or disapproval been heard. On the other hand there is a people are enthusiastic in their expression of endorsement. If the number already heard from is indicative of public sentiment there is no doubt that the effort to raise a fund with which to buy medals or badges will succeed.

The plan is to ask and receive small contributions—as low as 10 cents—in order that everybody may have a specially designed badge which will give the name and address of the man to whom it is presented. As yet no design has been prepared and the cost of each badge is of course not determined. The Advocate made the suggestion yesterday and asked for an expression before going into the details of the proposition. The day.

Governor Asks Registration Day Be Made One of Reverence

CELEBRATION AT BOOTHS IS ANOTHER SUGGESTION

Asks That Patriotic Gatherings Be Held After Close of Registration

(ASSOCIATED PRESS TELEGRAM)

Columbus, O., May 24.—Requesting that places of amusement be closed and schools dismissed for the day and that only the most important business be conducted, Governor Cox today issued a proclamation designating June 5 as a general holiday. On that day all Ohio men between the ages of 21 and 30 inclusive, will be registered for selective conscription to come at a later date. His proclamation designates the object as the "Call to the Colors."

"It is probably the most trying hour the world has ever known," the governor says, "and the policies of the government purified and preserved by those who live now, will determine the civilization under which our children and our children's children shall live in the future. * * * We should approach the day reverently—reflect upon its meaning and dedicate our hearts in gratitude to those who come forward for national defense."

In connection with the proclamation, Governor Cox today gave out the following information and guidance for communities:

"Elaborate and costly decorations should be discouraged. The spirit of volunteer service in all preparations for the activities of the day should be foremost."

"The celebration should be centered around the registration places, and those who register should be especially distinguished."

"The registration places should be decorated with the national colors and emblems."

"At 7 o'clock in the morning of June 5, the hour of opening of the registration booths, church and firebells should be rung and whistles blown."

"Bands should be played near the registration places and the parade should make a feature of stopping thereat. The men of registration age should be the feature of the parade, and should be escorted where practical, to the registration places with patriotic music, by their kinsfolk, neighbors and friends."

"To those registering a badge should be given showing that they have answered their country's call. This should be simple and distinctively symbolic of the state and nation and with an appropriate motto. It should be given only to those registering."

"After the registration booths are closed, large gatherings may be held with suitable speeches, songs, music and reading of the proclamation and message of the president."

CABINET MAN'S SON IS NAVAL RECRUIT

David F. Houston, Jr., in his uniform.

David F. Houston, Jr., son of the secretary of agriculture, has joined the navy and is now in training. He has shown great aptitude for the service. Six secretaries in President Wilson's cabinet have contributed nine of their sons to the army and navy.

NO ONE IN AGE LIMIT IS EXCUSED FROM REGISTRATION

(ASSOCIATED PRESS TELEGRAM)

Washington, May 24.—Emphasis is laid by provost Marshal General Crowder on the fact that no man within the prescribed age limit except those already in the regular army or navy, the National Guard in federal service or the reserve divisions of the naval service are excused from registration for military service.

"Even convicts and alien enemies are required to register," says a statement issued today adding, however, that those liable should not confuse registration with actual drafting for service in the army.

The statement points out also that the application of the draft and calling selected men to colors will furnish the opportunity for those who believe they should be exempted to submit their claims. The process of selection will be carried out, it adds, "by lot, by the fairest system that can be devised."

ITALIAN SHIPPERS LOST NO VESSELS LAST WEEK

(ASSOCIATED PRESS TELEGRAM)

Rome (via Paris), May 24.—No Italian steamers were sunk by submarines during the week ending May 20. One was attacked by gun-fire and sustained some damage. Only two sailing ships, both under 300 tons, were lost during the same period.

During the week, 460 ships representing a tonnage of 473,000, entered Italian ports and 387, representing 113,000 tons, left.

Italians Surprise Austrians and Take 9,000 Prisoners

Whole Line From Castagnovizza to Sea Is Broken by General Cadorna's Forces, Who Are Maintaining Their New Positions

FLEET OF 130 AIRPLANES DROP TEN TONS OF BOMBS ON THE AUSTRIANS

Second Phase of Italy's Offensive Surprises Military World With the Completeness of the Victory—Counter Attacks Launched by the Enemy Fail to Shake the Italians' Hold On New Line—Importance of Victory is Shown In Number of Prisoners Taken—Zeppelins Make Ineffective Raid Over East Coast of England

(ASSOCIATED PRESS TELEGRAM)

Rome (via London), May 24.—Italian forces yesterday broke through the Austro-Hungarian lines from Castagnovizza to the sea, taking more than 9,000 prisoners, says the official statement issued today by the Italian war department.

The Italian war office announced that Italian forces had occupied part of the area north of the Castagnovizza-Boscomato road, had passed Boscomato and had captured the town of Jamiano and strong heights east of Pietrarsca and Bagni.

The Italian official said the Austro-Hungarians at first were surprised and nonplussed. Towards evening they launched counter-attacks, but were repulsed.

Italian airplanes, numbering 130, dropped 10 tons of bombs on the Austro-Hungarians.

The British batteries co-operated with the Italians. Striking down the coast toward Trieste, the Italians opened the second phase of their offensive with a sweeping victory. They broke through the entire Austrian line from Castagnovizza to the Adriatic, a front of about five miles and took more than 9,000 prisoners. The new drive is a direct menace to Trieste from which General Cadorna's troops are now less than ten miles distant. The route lies along the Carso Plateau, and the advance of the Italians over this difficult ground was surprising in its rapidity.

The present offensive was opened by attacks mostly to the north and east of Gorizia. The sudden switching of the drive this week to the southeast of that town evidently took the Austrians by surprise. This condition apparently was utilized to its full advantage by General Cadorna in pushing his troops ahead. They are evidently well placed by night time, when the Austrians rallied and launched counter-attacks, for these were ineffective in shaking the Italian hold on the new ground.

The extent of the aerial co-operation in the attack is indicated by the participation of 130 airplanes in dashes behind the Austrian lines in which ten tons of bombs were dropped to help break up the enemy resistance.

The count of prisoners perhaps is more impressive than anything else in emphasizing their importance of the Italian victory, a total of nearly 10,000 rarely having been taken in one day in attacks of this character.

The Zeppelin and the submarine figure most prominently in the war news of the day with a raid by airships on the English east counties announced and the sinking of the 14,000 ton British transport Transylvania officially reported.

The Paris war office announced that so far in May, 8600 unrounded Germans have been captured in the field of the French offensive between Soissons and Auberive.

Approach Registration Day Reverently, Says Governor

(ASSOCIATED PRESS TELEGRAM)

Columbus, O., May 24.—A proclamation setting aside June 5, registration day, as an Ohio holiday, was issued by Governor Cox today. He requests that schools and places of amusement close, and all activities cease, save those necessarily required to be in operation.

The proclamation follows:

"The events which engulf this country in war are of the past. No one who is loyal to the flag, who thinks without prejudice, and who holds reverence for our national honor, questions the righteousness of our cause. Our President made every sacrifice, save our self-respect, to avert war. But it is upon us now, and time for defense has arrived. The President has designated June 5, 1917, when 'the manhood of the country shall step forward in one solid rank in defense of the ideals to which this nation is consecrated,' millions of men stand ready to respond. They must be selected carefully and systematically, and this is the object of the day which we shall designate in Ohio as the 'call to the colors.'"

"It probably is the most trying hour the world has ever known, and the policies of government, purified and preserved by those who live now, will determine the civilization under which our children and our children's children

shall live in the future. What greater guarantee of their peace and happiness can be given than a democracy that envelops all nations—a democracy sanctified by an enduring memory of what was unselfishly given to make it possible. We should approach the day reverently—reflect upon its meaning, and dedicate our hearts in gratitude to those who come forward for the national defense."

"I, therefore, proclaim the day of June 5, 1917, as a holiday in our state, requesting that business be suspended; that the schools close; that places of amusements be not opened, and that all activities, save the lines of continuous operation, halt in sacred observance of a solemn hour. Communities are requested to assemble the services of organizations, that can be useful in making our manifestations suitable and appropriate."

"Registrations will be made at the accustomed voting places. This work is assigned to the deputy supervisors of elections in each county, and full instructions will be issued to them from the secretary of state. The processes of selection for service and medical examination come later, and explicit directions will be given both by the war department at Washington, and by the state department."

(Signed) "JAMES M. COX, Governor."

CO. B GETS SEVEN RECRUITS; TWO BROTHERS JOIN

On Saturday, a flag raising and recruiting rally will be held at 3 o'clock in the afternoon, on the southwest corner of the public square, to inspire a realization that service to the country will be demanded, and to those who enlist before conscription becomes effective will be given the opportunity to serve in the unit with which they desire to serve.

Lieut. Oscar Koepfel is in the city again today as recruiting officer for Company B, Fourth Ohio Infantry, and he is co-operating with the Old Guard and the members of the Red Cross to make the patriotic event of Saturday a big success.

The flag staff will be raised over the recruiting booth of Co. B, located on the southwest corner of the public square and will be furnished by Charles H. Mercer. The Old Guard will be in uniform and accompanied by the fife and drum corps. Following the ceremonies of the flag raising machines will be furnished and the Old Guard accompanied by the young members of the Red Cross in uniform will visit the various parts of the city. Buglers accompanying the machine will sound the call to duty, and large banners will ask for recruits for both Company B of the Infantry and Battery C of the artillery.

Yesterday's enlistment in the infantry proved fruitful for a first day's work, seven names being enrolled as applicants, two brothers, James and John Schwoch of 40 Wing street, being among those who have applied.

The applicants included Lorin H. Cooper, Jr., Brownsburg, Pa.; Edward L. Hook, Jersey, Licking county; Howard L. Grundstaff, Newark, a business college student; James E. Schwoch and John Schwoch of 40 Wing street, William B. Matthews of Johnston and John S. Wilson of Newark.

Lieut. Oscar O. Koepfel, recruiting officer for Co. B, Fourth O. N. G. Infantry, received a telephone message from Colonel B. W. Hough, commanding officer of the Fourth Ohio Infantry, stating that First Lieutenant Frank D. Postle, Ohio Medical Corps would be in Newark Friday, May 25, 1917, to examine such recruits as have been enlisted. Lieut. Col. George Florence of the Fourth Ohio Infantry, will be in Newark Saturday to attend the flag raising over Co. B's recruiting station.

No new names were added to Battery C, but Roy E. Robinson who was enlisted a few days ago, left this morning for Camp Perry.

STATE ENCOURAGES SALE OF LIBERTY LOAN BONDS

(Associated Press Telegram) Harrisburg, Pa., May 24.—Action to release millions of dollars for investment in liberty loan bonds was taken last night by the lower house of the Pennsylvania legislature when it passed a bill designed to permit corporations to invest surplus funds in the war bonds. The senate is expected to pass the measure without opposition. A bill giving the same privilege to building and loan associations was reported favorably. Representative Sterling, sponsor for the latter measure, predicted its enactment into law within two weeks and says it should release at least \$10,000,000 for liberty loan investments.

BIG LINER SAILED SEAS TWO YEARS A "MARKED" SHIP

New York, May 24.—The Anchor line steamship Transylvania was sunk in the Mediterranean off the French-Italian coast, it was learned here today. The survivors—how many, it is not known here—were taken into Savona, Italy, by rescuers. There they remained until May 12, cared for by the populace and administered to by Red Cross authorities. When they left Savona on another vessel for an unnamed destination a throng of thousands of persons assembled at the shore and cheered the departure.

Captain Bruell, who lives in Scotland, commanded the Transylvania when she went down. He is one of the oldest captains in the Anchor line service.

The Transylvania's last appearance in American waters was on the day when the Lusitania was torpedoed—May 7, 1915. Just as she was about to sail from New York with 782 passengers, Captain Black, then commanding, was given the information of the Lusitania's fate. The vessel left ostensibly for Liverpool, but Captain Black steered around about course and landed his passengers safely at Greenock, Scotland.

It was generally reported at the time that the Transylvania also was marked for destruction.

GETS SUSPENDED SENTENCE BUT REPEATS CRIME

A negro who received a suspended sentence in the Licking county courts a short time ago was arrested in Akron on the same charge for which he was indicted here, highway robbery. The crime was also similar. He meets some one, pretends to be overcome and evidently faints away, but manages to extract a watch or pocketbook from those who offer him assistance. Sheriff Chas. H. Swank telegraphed the Akron authorities that he would like to have the negro to enforce the sentence of the Licking courts but received word that he would be indicted in Summit county.

A jury in the supreme court of New York county found Waite guilty on May 27, 1916, after he had told how he had anesthetized Mr. Peck and then smothered him with a pillow. This was after attempts to kill his victim with poison, suffocation and other methods.

Waite also told the jury that he had killed Mrs. Peck by inoculating her with disease germs and then giving her poison. His life was a self-confessed record of theft from the time he was 13 years old.

REGISTRATION.
Many are the questions that are
being asked about the selective con-
scription law and the registration of
men who are between the ages of
21 and 31 years but practically all
of them can be answered by this
statement:

Every man without regard to con-
ditions of any kind who is 21 years
of age and who has not on June 5
reached his 31st birthday anniver-
sary must be registered on Tuesday,
June 5, between the hours of 7 a. m.
and 9 p. m. Registration does not
necessarily mean selection. All men,
able-bodied or deformed, blind or
crippled, sick or well, married or
single, foreign or native born, natu-
ralized or unnaturalized—all men,
remember, between 21 and 31 are
required to register on June 5th.

No matter what claim one may
have for exemption, he must register
and his claim will be taken up by
the board which in Licking county
consists of Albert A. Stasel, Clarence
D. Coons, Dr. W. H. Knauss and
William M. Morgan.

Men who through sickness are
unable to present themselves for
registration at the voting precinct
one June 5 should have a representa-
tive apply for a copy of the registra-
tion card. The card properly filled
out should then be mailed or sent
by the agent to the registrar of the
man's home precinct. The sick man
will enclose a self-addressed, stamped
envelope for the return to him of his
registration certificate.

Failure to register means punish-
ment, imprisonment and then registra-
tion.

While none is exempt from registra-
tion, if he is between the ages of
21 and 31 years, those who were
Quakers, Mennonites, Dunkards or
members of the religious organiza-
tions that are opposed to war before
war against Germany was declared,
may be exempted from service by the
board.

Men must register whether they are
enemy aliens, subjects of France,
Great Britain or our other allies. Even
inmates of penitentiaries are re-
quired to register on June 5.

There is but one registration day
and that is Tuesday, June 5th. Pos-
sibly 2,500 to 3,000 men in Licking
county are between the ages of
21 and 31. Only 300 to 500 of this
number will be selected for service
at the present time.

PATRIOTISM AND BABIES.
How the strength of the nation is
being impaired by the conditions
which make babies sick and die,
is the concern of the children's bu-
reau at Washington, a division of
the United States Department of
Labor.

We are told that more than 200-
000 babies die each year. Means
must be found to prevent this terri-
ble waste of humanity. When we
think of the great disasters like the
Iroquois theatre fire with its toll of
700 lives, the Slocum or the East-
land accident, or the sinking of the
Titanic with its 1500 lives lost, we
shudder at the appalling numbers.
The largest figure becomes small by
comparison with the numbers of
babies lost every year. Prof. Dietrich
says:

"It was formerly believed that the
rate of mortality among children
who had not reached the first anni-
versary of their birth was a wise
dispensation of nature, intended to
prevent children with a weak con-
stitution becoming too plentiful. To-
day we know that a great infant
mortality is a national disaster—
on the one hand, because numerous
economic values are created without

1819 at Kensington Palace and was the only child of Edward, Duke of Kent, fourth son of George the Third. She ascended the throne of the United Kingdom on the death of her uncle, William IV, June 20, 1837, and was crowned at Westminster June 28, 1838. On February 10, 1840, she was married at St. James' Palace to Prince Albert, Prince of Saxe-Coburg and Gotha and second son of the reigning duke. The Prince Consort died December 14, 1861. In 1887, the fiftieth anniversary of her reign was celebrated by a "Jubilee."

Women Will Talk.

An' one day Ura Hogg was in there an' whilst she was there they had a terrible quar'l. Rite in front o' Ura an' she was that shocked she jest hot-footed it over here to tell us about it. How It Happened.
The Serfs had all tired of the knout, they rebelled, and they started to work. "We'll set ourselves free, a Republic we'll make, and the Czarovitch we'll put to kroust!"

There is a young woman in Balti- more who boasts that no man has ever kissed her. Judging by Balti- more men we have met she hasn't missed much.—New York Mail.

Of course she hasn't, living in Balti- more, but unless she is to be brought to a realizing sense of the depths of her misfortune we think some philanthropic person should see that she is kept away from New- ark.

Ring Lardner says that the first two principles of journalism are honesty and a day off in every seven. But we don't see why he lays such stress on honesty.

Loan is safe—"as safe as a Govern- ment bond" of course; the safest that is of all investments. Not until the country is so ruined that everything goes smash—stocks, bonds, railroads and savings banks—will the Liberty Loan be repudiated.

England calls her latest loan of Five Billions the Victory Loan.

France's latest appeal for money was christened the National Defense Loan.

Sixth War Credit is the official name of Germany's last bond issue. It is significant when one knows that her debt is now \$20,000,000- 000.

The United States have no men ready to fight, no arms, no supplies. The only thing we can do and must do immediately is the allies are par- aping, to give our allies enough financial support to allow them to replenish their fast-ebbing resources.

Now the American citizen is patri- otic enough when aroused, but he doesn't quite understand this per- emptory way of raising money. Nor does he realize even the great se- curity of the investment. Take his money out of the bank and invest in a new-fangled loan project? Not yet; wait awhile, and see what happens.

Government bonds are a familiar in- vestment. Out of his woolen stock- ing, right in through the subscrip- tion window at the Post Office his money goes, just as soon as his crops are harvested and sold. He has perhaps four sons at the front— if indeed they are still alive. He knows that one-tenth of his native land is overrun and devastated—and the rest of France is only protected by the line of soldiers for which his money is buying shells and cart- ridges. He has learned the awful lesson. No need for him to read the placards in the postoffices to re- alize that, as they announce:

"We are living in a time trying without precedent; and whatever sacrifices we endure and must yet suffer are not to be compared to those of the unhappy victims of the invaded provinces."

Every Loan called for in France has been speedily over-subscribed. England's five billions were also quickly raised. When Lloyd George said that every ten-pound note would be a more formidable means of destruction than a thirty-centi- meter shell, and would open a path for a soldier to pass through to vic- tory, Britons saw that their money would shorten the war. Checks rained in.

In Germany the argument was similar: "Convert your money into U-boats," was the cry. "Convert it into barbed wire!" "Prove to our foes that Germany's economic strength is unweakened, so that they may lose the hope of ever overcom- ing us!"

But Germany's success hardly proved that. Poor Germany is now apparently nearing the end of her resources. German newspapers have carefully avoided comparing the re- sults of this last War Credit with previous loans. The bulk of the subscriptions undoubtedly came from government-controlled institutions—municipalities, corporations and sav- ings banks.

Now that is just what we don't want—a loan contributed only by a few rich institutions. Wherefore, applications from banks and wealthy corporations are discouraged. We want a popular subscription, a loan with a backbone, financed by indi- viduals—by many—thousands all over the country—endorsing the war, unifying public opinion, and solidifying patriotism. The time will come soon enough when we shall have to pay in blood; let us pay in gold now, so that that human sacri- fice may not be, as it was in England and France, in vain!

So much for your patriotism now for your pocket.

The Bankruptcy of "Schrecklichkeit"
By Prof. W. H. Johnson, of Denison University.

In their military arm-chairs in Prussia, certain philosophers worked out a new theory of warfare, destined in their own minds to place Germany at the political and commercial head of the modern world, with all other nations as inferior in actual power as these philosophers conceived them to be in ability and character.

The theory was based upon the recognized scientific efficiency of German organization, and the possession of an enormous war machine, and it was simply this: Make war just as destructive and horrible as modern scientific efficiency can achieve, and extend it not merely to the armed forces of the enemy but to the entire population. The result will be such terror, especially among non-combatants and women and children, that the enemy will speedily give up the conflict in fear of absolute annihilation.

Such was the theory of "Schrecklichkeit," as definitely stated by various German writers. Certain defenders of Germany have denied that this theory has any wide acceptance among the Germans, but the Zeppelin raids over London and Paris and Antwerp, with their toll of the blood of helpless women and children, and the inhumanities of the lawless submarine, whose "black trail of butchered ships bestrewn the bed of every sea," in the words of Henry Van Dyke, give evidence only too glaring that the war lords of Berlin took the theory at the very outset as the basis of their conduct of the war.

And what has been the result, from the military point of view? First and foremost, it so shocked the civilized world by its gross inhumanity that public opinion in neutral states could never have been brought to the side of Germany even if her reason for making war at all had been within the limits of possible neutral approval. However it may appear to the members of the General Staff in Berlin, blowing the bodies of women and children to bits with bombs from the air, hundreds of miles from the actual war front, is a dastardly business to the mind of the normal man in other countries, brought up under the influence of modern humane teach- ings and tendencies. Whatever good qualities German "kulture" may have in other phases, we do not want a kulture smeared with the innocent blood of women and children.

Again, the Zeppelin raids over France and England, so far from inducing a terror which would give up the war, acted in every single case to produce exactly the opposite result. A quickening of enlistments, a readier-giving up to the colors of their loved ones by the wives, mothers and sisters of England and France, a grimmer determination never to give up till the victory was complete, was the actual and inevi- table result of each and every one of these inhuman Zeppelin raids. And the same has been true of the submarine. The crime of the Lusitania did not frighten ships and passen- gers from the seas, but made it inevitable that sooner or later the United States would take its position in the war on the side of the Allies.

But the war philosophers at Berlin had not even yet learned the lesson of current experience. "Make the horrorfulness still more horrible," was their conclusion, and the submarine campaign absolutely unrestrained, against all neutral com- merce with the Allies, was begun. It has gone on for nearly four months, and has proved what? Simply its own inability to secure the end desired. But it has at the same time abso- lutely convinced the world outside

DADDY'S BEDTIME STORY
A Tale of Some Storks
[Adapted from Hans Christian Andersen.]

JACK and Evelyn put away their shovels and rakes so as to be all ready for daddy's bedtime story: "There was once a little town where a father stork built his nest on the roof of a house that stood on the edge of the town. Mother Stork was sitting on her nest full of little ones. They stuck their little black beaks out into the sunshine. They were so small that their beaks had not yet begun to turn red."

"A little way off on the ridge of the roof stood Father Stork, erect and stiff, with one leg drawn up under him. He at least took that much trouble to stand sentry. You would have thought he was carved of wood, he stood so still."

"It looks so grand for my wife to have a sentry stand guard by her nest," said Father Stork to himself. "Folks don't know I am her husband. I dare say they think I have orders to stand here like this on one leg. It looks smart."

"So Father Stork, for the sake of appearances, continued to stand on one leg near his nestlings."

"Down in the street some small boys were playing. When they saw the stork sentinel one of the boldest boys led his mates, singing an old song about storks. It had cruel things in it, things about hurting the small storks, and you children can imagine whether this made the baby storks happy."

TWO GOOD REMEDIES
WORKING TOGETHER, PRODUCE MARVELOUS RESULTS.

For instance, Hood's Sarsaparilla, the standard blood purifier, is recommended for conditions that are scrofulous or dependent on impure blood. Pepton Pills, the new iron tonic, are especially recommended for conditions that are radically or characteristically anemic and nervous. Many persons suffer from a combination of these conditions. They are afflicted with swellings of the glands, bunches in the neck, cutaneous eruptions, and sores on different parts of the body. Limbs, and face, and are besides pale and nervous. If these patients take both Hood's Sarsaparilla (before meals) and Pepton Pills (after meals) they are reasonably sure to derive four-fold benefit. These two great medicines supplement each other, and the use of both, even in cases where only one may appear to be indicated, is of great advantage. Get them from your druggist.—Advertisement.

Keep Your Hair and Scalp Clean

If you want a good healthy growth of hair care should be used in keeping the scalp clean, free of dirt, dust and dandruff. Do not use cheap soaps or shampoos that contain too much alkali as they are liable to dry the scalp and make the hair too brittle. For steady use the best thing is kreamol, a liquid which you can secure at almost any drug store. It is very cheap as a four ounce bottle will be sufficient to last a family for several months.

To cleanse the hair and scalp thoroughly, simply moisten the hair with water and rub in the kreamol. One or two teaspoonfuls will make. Rich, creamy lather and it is very easily rinsed. The hair dries quickly and evenly and leaves it fine, bright, fluffy and easy to care for.—Adv.

Kreamol is sold at Evans' Drug Store (Warden Hotel Block), Newark, Ohio, and Ulman's Drug Store, Granville, Ohio.

Granville

[Special to The Advocate]

Granville, May 24.—Patriotism will prompt every one to attend the charming three act play to be given this evening in Recital Hall at 8:15 by the young ladies of the Adelphi Literary society, who made so great a hit with the performance last week. While "Miss Fearless and Company" is in no sense a patriotic production, it was so cordially received and so highly enjoyed by one audience, that the cast, directed by Miss Lily Belle Sefton, cheerfully consented to repeat it for the benefit of the Red Cross and A. F. W. committees. Come early. Only a nominal admission fee will be taken with no reserved seats.

The second students' recital of the semester was given on Wednesday evening in Recital Hall, before a large and interested audience. The program was well balanced and sufficiently varied, and included selections for piano, organ, voice and violin representing the work of Miss Farrow, Miss Brown, Mr. Soule, and Miss Smith, respective heads of these departments. Those taking part were Misses Hava Reel, Marjorie Treat, Marjorie Hamilton, Olive Hunt, Gladys Spencer, Ruth Dittler, Ruby Barnes, Ethel Hagge, Martha Bond, Lois Lockhart, Madeleine Edgerly, Vasthi Jones, and Mr. Miner Mitchell. The two-piano work was ably contributed by Misses Edith Wilson, Ethel De Long, Zada Woolace, Helen Stump, and Misses Eleanor Johnson, Helen Shuman, Florence Chubbuck, and Lucile Stockberger.

Dr. C. L. Williams of the English department, who was granted a leave of absence on account of impaired health, has gone to New Jersey, accompanied by Mrs. Williams, where they will spend the summer, not far from Asbury Park.

Mrs. Restieaux of Columbus was the guest of Mrs. J. S. Jones at "Bryn Du" today.

Mr. and Mrs. George Stuart have as house guest their sister, Miss Florence Pierpont of Marysville.

Henry Stout of Dayton, accompanied by his mother and sisters, will motor to Granville Friday for the Shepardon Carnival on Saturday.

The patriotic spirit will be in evidence at the Shepardon Carnival Saturday. While admission to the grounds is free, opportunity will be given visitors to contribute a silver offering to the Red Cross society.

Mrs. Ray will also be prepared to receive new members into the society, although no active recruiting will be done, such as marked last Saturday's activities. New names are being received and an additional list will be published in next week's Times.

About 35 Granville people who attended the meetings of the Northern Baptist convention in Cleveland last week and three days of this week, have returned home. Among the number whose work was recognized by the assembly were President Clark W. Chamberlain of Denison University, who was elected President of the Northern Baptist Education society. Rev. T. F. Chambers, who was elected secretary of the state convention's assembly conference. President Chamberlain delivered an address before the board of education of the convention, and Rev. H. H. Tibbe addressed the American Board of Foreign Missions. Mrs. T. F. Chambers spoke at the women's meeting of the East Central district.

The net receipts from the library benefit Tuesday afternoon and evening were \$34.85. Austin and Case paid all expenses and turned over half the receipts to the library board.

Born, May 21, to Rev. and Mrs. Clarence Eddy of Zanesville (nee Miss Grace Harford), a son.

President Chamberlain has just received a telegram from Judge Advocate General Turner, giving instructions for the appointment of a special registrar at Denison. By this method, non-resident students may make their affidavits for registration, without the necessity of a journey to their homes. Prof. C. D. Coons has been named for the duty of registrar.

BRITISH PEOPLE PLEDGE ECONOMY IN USE OF FOOD

London, May 24.—This is Empire Day and Great Britain is observing the holiday as a national food pledge day. Everybody is expected to sign a pledge in response to the King's proclamation appealing for economy and frugality. Already 2,000,000 people have signed and on today's result practically hangs the decision between voluntary and compulsory rationing.

The Lord Mayor of London, accompanied by the sheriff, appeared in their official robes on the steps of the royal exchange early in the day and invited all hearers to proceed to the mansion house and take the food pledge. A similar meeting was held at the Guild Hall and thousands of gatherings with the same object met throughout the kingdom. All factories, schools and other institutions agreed to cease work at noon for a sufficient length of time to enable employees to sign the pledge.

More than 3,000,000 helpers are engaged in the campaign and the organizers are so confident of success that they predict that voluntary rationing will win an easy victory.

DONAHEY PLACES BAN ON LUXURY AT STATE EXPENSE

Columbus, Ohio, May 24.—The auditor of state today announced that all departments of state government have been requested to eliminate from expense accounts items for "chair cars, taxicabs and all other unnecessary expenditures." The statement says \$15,000 is spent annually for chair car seats and taxicabs alone.

All other "unnecessary, extravagant and useless expenditures" are to be minimized, the department declaring that "Now is no time for such selfish indulgence at the expense of the public," and that officers should practice as well as preach economy. Auditor V. Donahey says the "useless" expenditures referred to amount to half a million dollars each year.

TRAIN YOUR HAIR AS AN ACTRESS DOES

No class of people devotes as much time to beauty as do actresses, and no class must be more careful to retain and develop their charms. Inquiry develops the information that in hair care they find it dangerous to shampoo with any makeshift hair cleanser. The majority say that to have the best hair wash and scalp stimulator at a cost of about three cents, one need only get a package of cantrox from your druggist; dissolve a teaspoonful in a cup of hot water and your shampoo is ready. This makes enough shampoo liquid to apply to all the hair instead of just the top of the head. After its use the hair dries rapidly, with uniform color. Dandruff, excess oil and dirt are quickly dissolved and entirely disappear when you rinse the hair. After this your hair will be fluffy that it will look much heavier than it is. Its lustre and softness will also delight you, while the stimulated scalp gains the health which insures hair growth. (Adv.)

"BULL" MONTANA IN FILM PLAY AT THE AUDITORIUM

In the Auditorium picture last evening, those present who have followed the wrestling game, were greatly surprised to see the well-known features of "Bull" Montana, who has wrestled Paul Bowser in this city on two different occasions, Bowser getting the decisions after hours of tedious work.

The picture shown last night and which will be seen again today, is Douglas Fairbanks in "In Again, Out Again." The wrestler, formerly a well-known boxer, is cast as a burglar and he plays his part to perfection. It is one of the leading characters, with much comedy, and is said by those who witnessed it to be "a scream." Montana is in excellent company; in fact, among the "top-notchers," and Manager Geo. Fenberg states that he is a very clever screen artist.

Make your home attractive to the children and young folks, that therein they may find contentment—that they will love their home—and that it may be so full of delights to them that they will find more pleasure always within its circle than anywhere else. OLD GUARD HELPS TO STIR RECRUITS TO JOIN COLORS

Capt. Matthew Bausch this morning issued orders for the mobilization of Co. B, Old Guard, and drum corps, Saturday afternoon at 1 o'clock, to assist in the big drive to be made by Co. B, Fourth Infantry, O. N. G., in conjunction with Battery C, Ohio Field Artillery. Both these national guard organizations have opened recruiting stations here and are seeking about 100 men each to fill their organizations to war strength as ordered by the department at Washington.

Young men of military age, especially those within the conscription limits, should consider entering the guard units which gives them the privilege to choose the branch of service in which to serve. When the selective draft is in operation, recruits will have little opportunity to express the choice of the various branches of service.

Lieut. Koeppel points out that his company offers special advantages because of the long service of its officers, most of whom have seen active war service.

AMERICA TO FEED THE ENTIRE WORLD

Wheat Supply Normal, Other
Crops "Running Over."

NEW FARMERS ARE BUSY

Grave Problems of Finding Means of Transportation Must Be Met—Canada Hampered by Lack of Storage and Shipping Facilities—13,000,000 Dozen Eggs Lost Yearly by Carelessness.

The committee on statistics and standards of the 'Chamber of Commerce of the United States,' after an investigation nation wide, announced that the United States will be equal to the world food supply demand.

"It is probable," a report from the committee says, "the wheat crop will be normal, but if not other products will save the situation."

"In the last analysis it seems that the real problem of the European food importing countries will be one of sufficient and safe transportation even more than the question of enough food supply."

A statement issued by the chamber said:

"With favorable weather from now on, the total winter wheat yield may somewhat, though not materially, exceed the harvest of last year. At this stage of the growth of the spring wheat crop all that can be reasonably said is that the law of chance is for a greater production than that of last season."

Other Crops "Running Over."

"If, however, we should not have as much wheat to export as would be necessary, there seems a strong probability that we shall have other available food supplies, such as corn, oats, potatoes and the like, not only in full measure, but running over."

"There is much cheer in the way people in the town and on the farm are awake to the necessity of greatly increasing food products this year," says Archer Wall Douglass, chairman of the committee. "Not only are gardens being cultivated everywhere and vacant lots being used, but lawns, parks, railroad rights of way and flower gardens are devoted to the raising of all manner of vegetables. Of even greater moment is the story of an acreage of corn, oats and potatoes that will break all previous records."

"Reckoning 100,000,000 inhabitants in round figures, we shall need approximately 625,000,000 bushels of wheat for our own use and for seedling, and the remainder will be available for export. These figures will vary according to the amount which we carry over into the 1917 harvest from the 1916 crop, the amount of stocks of flour which we also carry over this year beyond the 1st of July and the acreage which we shall plant next fall and next spring for the 1918 harvest."

"So far as other principal wheat exporting countries are concerned, it is pointed out, it is known that the Argentine crop of wheat is short and that the exports will be much less than last year. It is very difficult to get definite information as to the situation in India. Apparently the Indian crop and consequently exports will not be quite so large as last year, but this is merely an estimate, since the harvest is not yet on."

Australian Crop Ample.

"On the other hand, it looks very much as if Australia will 'do her bit' for her mother country. The Australian crop is harvested. It is of good quality and more than the average production. After supplying the home wants it seems likely that there will be 100,000,000 bushels available for export, in addition to about 14,000,000 bushels already shipped."

"This problem is still further complicated, it is said, by the possible wheat yields in Spain, France, England and in the other countries in Europe to which we are at present able to send wheat."

"It seems quite sure that the English production will be larger than usual, if the energy and interests of the government and the people can bring it about. There remains Canada as the most important factor, because the Dominion is at once a large producing and large exporting country. This is particularly true of the three northwestern provinces—Manitoba, Alberta and Saskatchewan—since especially in these three provinces there is much more grain raised than is consumed."

"Their serious difficulties are the lack of storage and transportation facilities. It is declared. Seeding of spring wheat in Canada is late because of wet, cold weather. It is progressing fast in southern portions of the north-west provinces. With abundant moisture in the soil the acreage seeded will depend upon the weather."

One of the reasons for the scarcity and high cost of eggs in the fall and winter is that through carelessness in handling them more than 13,000,000 dozen receive tiny cracks. The United States department of agriculture is now embarking on a campaign to teach proper packing to those who handle the eggs en route from hen to egg storage.

An eggshell may be cracked so slightly that the eye cannot see it and yet be damaged so greatly that germs and molds find ready entrance inside the eggshell and spoil the contents.

No, Maude, dear; the manure girl has no cause to complain of the scarcity of farm hands.

HEARD THE CLOCK STRIKE ALL NIGHT

Woman Was Very Nervous Before Tanlac Built Her Up.

HOUSEWORK EASIER NOW

Housework used to be drudgery for Mrs. J. C. Hamaker, 757 South Seventh street, Coshocton, because she was so run down that she was tired out all the time.

"I can honestly say Tanlac helped me more than anything I ever took," said Mrs. Hamaker. "I was all run down before I started taking it. Gas formed on my stomach after eating and gave me so much trouble that I couldn't sleep soundly. My nerves seemed to give way too. I would hear the clock strike every hour all night."

"In the morning I got up with that draggy, worn out feeling and was tired all day. My housework seemed much harder than it really was because I felt so run down. The least little bit of exertion would give me a headache. "Since taking Tanlac I don't have that bloated gassy feeling any more and my head seldom aches. I sleep better now and get up feeling ready to go about my housework in my old way. I tell all my friends what Tanlac did for me."

Tanlac is a vegetable tonic especially designed to build up run down people. It is made of roots, barks, herbs and berries, whose medicinal properties are extracted by a special process. Get it today. It will do for you what it has done for thousands of others.

Tanlac may be obtained in Newark at Erman's Arcade drug store; in Hebron at Hebron Drug Co.; in Alexandria at C. M. Gilmore's; in Pataskala at J. R. Strine's; in Granville at W. P. Ullman's.

LITTLE STORIES ON FEEDING

Gained 26 Pounds

A Missouri druggist wrote us a few days ago that his wife had suffered a nervous breakdown and was in a precarious condition. His doctor advised him to use HEMO, a palatable malted food.

She had gone down to 95 pounds and after a few months' use of HEMO she now weighs 121 pounds and still gaining flesh. Her vitality has increased wonderfully and they are now converted to the idea that proper feeding is the thing.

HEMO is the right food for those generally debilitated from indigestion, anæmia, chlorosis, or convalescents from surgical treatment, fevers and wasting diseases.

If your health is impaired, try HEMO and watch the improvement. We suggest that you try a 50c package with our guarantee of satisfaction.

TIME WILL SOLVE RUSSIAN PUZZLE

Months May Elope Before Republic Is on Firm Basis.

AUTOCRACY GONE FOREVER

American Public Delighted at Change, Says Young Russian, but Must Remember That Rome Wasn't Built in a Day—Must Rigid Army of Officers Loyal to Old Regime.

By ELIAS TOBENKIN
Of the Vigilantes.

"The greatest immediate service the American people can render Russia in the present crisis is to understand it and, understanding it, to be patient and charitable. Rome was not built in a day, and the most archaic of monarchies in the world cannot be turned into the most liberal of republics without friction or disturbance of some sort. To mistake, however, the pangs of childbirth of Russian freedom for a death throes, is to say the least, childish. Autocracy is gone from Russia never to return."

You would expect the man who spoke these words to be elderly and, being a Russian, to have a beard of proper dimensions and, being a former nihilist, to have hair to match the beard. But B. Vlodek has none of these attributes. He is a man in the thirties, clean shaven, his hair cropped short. He speaks English well and thoughtfully and is anxious that no mistake be made with regard to his standing in this country. He is a citizen by choice—and a good one. Mr. Vlodek was recently appointed news editor of the New York paper Forward. He looks upon things American as an American.

American Public Delighted. "The American people," Mr. Vlodek continued, "have taken the change of governments in Russia with a shout of joy. The American public was delighted to see Russia free itself from czarism and autocracy, but now we in the United States seem a bit peeved because there are disagreements in Russia between various parties and factions. We should not be. That was just the thing to expect."

"The revolution in Russia is the outgrowth of a labor disturbance. First came a strike, then a revolution, then freedom. Immediately after the revolution was accomplished the workmen of Petrograd, who were the backbone of the revolution, organized themselves into the Council of Workmen's and Soldiers' Deputies. The nucleus of the organization was there since the revolution of 1905. They revived it now. The workmen of Moscow perfected a similar organization, and the workmen of other cities followed suit."

"About two or three weeks ago these councils held a convention, and a national organization was perfected. In the United States we call this Council of Workmen's and Soldiers' Deputies a Labor party. It is the first and, to date, still the only organized political labor party in Russia."

"I think it is of greatest importance to America not to misunderstand the issue. The working masses of Russia have forced the revolution. The working masses now demand a say in the government. They demand it through their organization, the Council of Workmen's and Socialist Deputies."

Council Is Not Pro-German. "The Council of Deputies is not pro-German. The Russian masses are not pro-German. The pro-Germans in Russia have always come from the upper classes, the bureaucrats. The Workmen's Council is not flying into the arms of Germany. It is true that this party of working people would like to see a speedy ending of the war, but it would like to see this not out of love for Germany, but because it is afraid of these pro-German bureaucrats of the upper classes."

"The Council of Workmen's and Soldiers' Deputies desires peace, but not peace at any price, largely because it wants to see civil and political liberty established on a firm foundation in Russia."

"The revolution of March 12 has left 1,000,000 officials who drew their livelihood from the old regime jobless and ready for trouble. The Russian officers of the army were intimately connected with the old regime. There are half a million of them to be replaced. The judiciary of Russia under the old regime was a farce. Men were appointed to office not to deal justice, but to serve the bureaucracy. These men have to be replaced by men who are democratic, who are followers of the new order. The press of Russia has been turned into a servile and corrupt institution by the old regime. It is now finding itself. It is cleaning house and opening its windows wide to sunshine and freedom."

Demand Immediate Solution. "All of these problems demand immediate solution. The workmen are the men who paid bravest in Russia's battles for freedom, and naturally they would not like to see the fruits of their victory snatched from them."

"This is the psychology back of the desire for peace among the working people and their spokesmen. But these people are democrats first and foremost, and they will never consent to a peace for Russia alone, regardless of the dangers which such a peace may bring to the rest of the world."

A stitch in time has mended many a man's wars.

YOUR INCOME TAX ALL FIGURED OUT

Amount to Be Paid if Bill Now Pending Becomes Law.

EXEMPTIONS MUCH LOWER

Single Men Must Pay on All Over \$1,000 Per Year, While Married Men Must Pay on All Over \$2,000—The More the Income the Larger the Percentage of Tax.

To settle the confusion over the income tax section of the new revenue, experts of the treasury department have made the following compilation of taxes that will be paid by married men under provisions of the new bill.

Two thousand dollars income is exempt from taxation.

Three thousand dollars income pays \$20.

Four thousand income pays \$40.

Five thousand pays \$80.

Six thousand pays \$120.

Seven thousand pays \$180.

Ten thousand pays \$355.

Twelve thousand pays \$485.

Fifteen thousand pays \$730.

Twenty thousand pays \$1,180.

Fifty thousand pays \$4,780.

One hundred thousand pays \$14,180.

One million pays \$400,180.

Ten million pays \$4,885,180.

The maximum is reached on \$100,000,000. Anybody having that income must pay \$49,885,180 in tax, or just under 50 per cent.

In the case of a single man there is an increase of \$20 on all these amounts. He will be taxed \$20 on \$3,000, \$60 on \$4,000 and so on.

These computations are based on an interpretation that the proposed law continues the present income tax law and its rates in force and merely superimposes additional war taxes. Therefore to figure out the tax on any particular income it is necessary to ascertain first the tax at present levied and then add the proposed new tax to that amount.

There is further complication on account of lowering the exemption. This problem can be simplified, however, by following the rule that incomes up to and including \$4,000 for married persons and \$3,000 for single persons will pay only the present tax rate of 2 per cent.

Their increase is only the single one of lowered exemption and not the double burden of lowered exemption and increased rate that will fall upon incomes above \$4,000.

How a Married Man Figures.

A married person with an income of \$3,000 figures his tax in the following manner:

Income, \$3,000; exemption, \$2,000; liable for tax, \$1,000; rate, 2 per cent; total, \$20. A \$4,000 income pays 2 per cent on \$2,000. A \$5,000 income figures the tax as follows: Total income, \$5,000; exemption, \$2,000; liable for tax, \$3,000. Two per cent tax on the \$2,000 between two and four thousand, due to the lowering of exemption, equals \$40. New 4 per cent tax on the \$1,000 between four and five thousand equals \$40; total tax, \$80.

A \$7,000 income is figured as follows: Exemption, \$2,000; liable for tax, \$5,000, two thousand being the amount between two and four thousand on account of lowered exemption, charged at 2 per cent, equaling \$40; \$3,000 being the amount between four and seven thousand, charged at 4 per cent, equaling \$120; surtax of 1 per cent on \$2,000 being the amount above \$5,000 where surtaxes begin, \$20. Total tax, \$180.

In the debates there have been confusion and difference among members on how to figure the income tax. Representative Fordney, ranking Republican member of the ways and means committee, gave a different interpretation in his speech from that of the Democratic majority understanding and the treasury ruling. The point of difference applied chiefly to small incomes, whether the first \$2,000 of income above the exemption would pay at the present rate of 2 per cent or the new rate of 4 per cent.

According to the Fordney interpretation, a \$5,000 income of a married man would pay \$40, a \$4,000 income \$30 and a \$5,000 income \$120.

DEVICE ENDS GUN DEAFNESS.

Nobel Prize Winner Invents Valve to Protect Ears.

A device to reduce to the minimum deafness caused by the detonations of heavy guns has been invented by Professor A. A. Michelson of the University of Chicago, a winner of the Nobel physics prize.

It is a small aluminum valve which fits in the ear. A spring keeps the valve open to ordinary sounds, but heavy sounds automatically close it. It will be tried out at Fort Sheridan.

Has Seen Soldiers Off to Five Wars.

Since P. Marim, aged ninety years, one of the oldest residents of South Park, Me., has been an eyewitness of five different departures of soldiers going for duty in war. The first was the bloodless Araboosook war in 1859, the second was the Mexican war in the forties, the great civil war in the thirties, the Spanish-American war in 1898 was the fourth and the present war the fifth.

A Great Photoplay.

Large crowds saw Douglas Fairbanks in his initial photoplay at the head of his own company at the Auditorium yesterday and many were the comments on the entire production. "In Again, Out Again" is the name and play of world wide fame "Doug" and to say it is an American bombardment of dramatic delights, a cyclonic whirl of laughs and thrills, culminating in a breezy romance that wins "Doug" fame, fortune and a beautiful bride. The story—Teddy's (Fairbanks) ideas of preparedness causes his rather pacifistic fiancée to cast him aside for another whose ideas of fighting were less war-like, with the final result that Teddy found himself in jail after too many cocktails. But Janie, the jailor's daughter, was the ray of sunshine that made Teddy's thirty days pass quickly, and after his release he tries all manner of means to gain admission to the jail. He tries speeding only to discover that he is in the wrong country, and is sent to the wrong jail. He impersonates an arch criminal who has the means for blowing up munition factories, and comes very close to becoming entangled with federal authorities, when by a strange turn of events he captures the real criminal, and out of gratefulness, the jailor consents for Teddy to marry his daughter. The last showing will be given today and it is a picture really worth while. "Bull" Montana, a wrestler who has appeared in this city, is cast for the burglar, and he's a scream. You'll remember "Bull" the minute you see him on the screen.

ers since their first pilgrimage ten years ago, the high regard in which they and their productions are held by the critical student bodies and faculties of the leading colleges and universities of the country, is due to the studios care which Mr. Coburn gives to every play that is admitted to his repertoire. Surrounded as he is by men and women who have imbibed from him the spirit of his ideals, the magnetism of his personality pervades every department of his enterprises.

Mr. and Mrs. Coburn have just finished a successful season in New York City and have just taken to the road and will play several weeks throughout the Middle West and have included Newark in their route and will offer on next Saturday afternoon and evening the great Chinese success "The Yellow Jacket," a play of laughter and tears, of youth and old age, of love and adventure. The incidental music, which is like "sweet sounds on a heaven-sent breeze" is a part of this rich and rare entertainment. The play is beautifully costumed and acted in the manner of the Chinese Theatre. The seat sale started off this morning, and from present indications, the Coburns will be greeted by two crowded houses here.

New York was "Bagdad on the Subway" to O. Henry. Around this whimsical conception he wove the marvelous stories of human life—droll, tender, humorous, pathetic, romantic—which made him the most widely read and best loved writer in the world. With a swift, sure hand he sets his simple stage, fills it with delightfully human and absurdly romantic men and women whom he alone could portray, and makes them play out those droll comedies and pathetic tragedies which will live forever in the hearts of people all over the civilized world. These stories in picture form show you the scenes and the people he loved so well and described with such

amazing genius—such wisdom, understanding and sympathy. The first of these pictures, "The Cop and the Anthem," will be shown at the Grand on next Saturday.

ALHAMBRA.

Friday and Saturday. In making the Famous Players-Paramount picture "Heart's Desire," starring Marie Doro, Director Grandon took a party of 26 to Jacksonville, Florida. The party included a number of extra cameramen, some "supes" or "extras," besides a generous allowance of property men, maids and wardrobe women. This

"Royal Romance." The day Virginia Pearson, the famous William Fox star, appeared at the Strand Theatre in Tampa, Fla., while in that city making her latest film drama, "Royal Romance," was the greatest that place has known since the American troopers concentrated there during the Spanish war.

Miss Pearson will be seen at the Auditorium, Sunday, together with Fatty Arbuckle in "A Reckless Romeo," and a high class vocalist, who will sing latest song selections.

"Romeo! Romeo!" The 1917 Spring model of Juliet's famous lover is none other than Roscoe "Fatty" Arbuckle, whose newest comedy two-reeler, scheduled for release on the Paramount Program has been christened "A Reckless Romeo." Originally, Romeo brought a sylph-like figure and the grace of the willow tree to the brook to his role. Furthermore he endeared himself to the matinee girls by dying for his love. Not so "Fatty" Arbuckle. By way of bringing his hero up to modern requirements and making him equal to the strain of life in New York the big comedian endows him with a 350-pound figure and puts him through a series of dare-devil gymnastics likely to make the vaudeville acrobats green with envy.

"Fatty" will be here again next Sunday and at the Auditorium, where really the big things are seen first. This feature together with Virginia Pearson and Irving Cummings in "A Royal Romance," also "The Masked Beauty, Unmasked," who will sing selected numbers, will make a program that will please the most exacting of Sunday picture fans.

 Mayor R. C. Bigelow on the charge

 fact that he met a young American

 would pay it as soon as possible. The

 and pulled him up the alley north of

 a patrolman took the Greek into cus-

U. S. WAR FACTS.
 The United States is the eleventh
 nation to enter the fight
 against Germany.
 We are the fifteenth nation in
 the war.
 All of our wars have been
 declared in April, except the War
 of 1812, which started in June.
 This is the seventh war of the
 United States.
 It was 19 years last month
 since we declared war upon
 Spain.
 This is the first war in which
 America and England will fight
 on the same side.
 War followed 64 days after
 Germany's note breaking her
 pledges to the United States.
 The Lusitania was sunk 23
 months ago.
 The so-called eight "Great
 Powers" are all at war.
 This will be our first war
 against a combination of coun-
 tries.
 The first, third, fourth, fifth,
 sixth and seventh strongest
 navies are ranged against Ger-
 many. The German navy stands
 second, and the Austrian eighth.
 The United States brings in
 110,000,000 people against the
 central empires.
 We have averaged one war in
 every 20 2-7 years.

A "Close-Up" of a "Hold-Up."

Getting a "close-up" of a "hold-up" such as this should prove one good reason why young men are ambitious of becoming screen stars. On the other hand, there are not many young ladies who would mind being "held up" in a similar manner if Douglas Fairbanks performed the deed as here shown. The picture presents one of the many charming "bits" in the initial Fairbanks-Artcraft picture "In Again—Out Again."

FRENCH PEOPLE ARE ELATED BY U. S. ATTITUDE

(Continued from Page 1) covering three pages written in the President's right hand. Marshal Joffre has brought with him certain memoranda of things agreed upon, including the early co-operation of the United States on the western front which has been announced in part in America since the commission left. Admiral Chocheprat has a clear working understanding of American naval purposes and Marquis de Chambrun of the foreign affairs committee of the Chamber of Deputies, has made a special study of America's relation to international political problems. He will tell what he has learned at a special meeting of the chamber committee.

LET'S PRESENT EACH SOLDIER A SUITABLE BADGE OR MEDAL AS A GIFT THIS COMMUNITY

(Continued from Page 1.) is indeed glad that the idea has met with the hearty endorsement of many of the leading men of the community. Here are some of the communications received this morning. Others will be welcomed. Editor of The Advocate: I am glad you have thought of a way to bring home to our recruits for the army and navy the appreciation in which they are held by this community. The idea of gathering a fund and with it getting a badge or identification disc for each soldier from Licking county is a good one and I believe our people will generally and gladly take part in supplying the amount needed. E. C. Wright.

Editor of The Advocate: I was interested in your suggestion made in yesterday's paper to give a badge to every Licking county man who goes to the front. Let the badge be of permanent character. Make it of bronze or other durable material. It need not cost over 50 cents or a dollar and if a large number will give 10 cents each or more a sufficient fund can be raised quickly and easily. We ought to show this little recognition to our boys who are about to go who have already gone into the service. Yours truly, Wilson Hawkins.

Editor of The Advocate: The proposition to give a badge to every Licking county boy who enters the service of the U. S. army or navy is a good one. The suggestion to accept 10 cent subscriptions is the right way to proceed as that will let everybody in. Count on me to do my part. Very truly, Frank L. Johnson.

Editor of The Advocate: I like your suggestion to provide every Licking county soldier with a badge. It is not necessary to furnish an expensive badge but it should be of special design, made of metal and a great number of people should contribute small sums to the purchase fund. It ought to be a community affair. Every soldier going from Licking county will be proud to possess a badge given to him by the community. T. L. Davies, Jr.

Editor of The Advocate: Noticing your request for an expression from readers on the proposal to give Licking county soldiers a distinctive badge, I am glad to endorse the suggestion and would like to see a large number of contributors. Make each contribution small so that everybody can get in. Very truly, W. J. Timpton.

Editor of The Advocate: I most heartily approve of the suggestion made by the Advocate to present each Licking county soldier with a badge. While we all hope that the war will be brought to a speedy conclusion, yet no one knows what is in store for us, so that appreciation for the services of those who are fighting for us should not be limited by this very slight token of our gratitude. F. M. Black.

Editor of The Advocate: As there are many demands these days for subscriptions, all of them worthy, it was a happy thought that suggested 10 cent contributions to a fund to be used in buying badges for our Licking county soldiers. Every man should be given a badge paid for by popular subscription. A. L. Thomas.

Editor of The Advocate: A patriotic duty has called many of our young men from Licking county to the front. Hundreds of others will soon join the colors. We cannot do too much for these brave boys. I heartily endorse your suggestion of presenting them with a medal of recognition. Let us make it a public occasion and our earnest prayers will follow the brave boys throughout this titanic struggle. Royal C. Digbee, Mayor.

Editor of The Advocate: By all means let's go together and present our soldier boys from good old Licking county, a medal as suggested in yesterday's Advocate. Would not a uniform subscription be a good idea? Fred S. Wilson.

Editor of The Advocate: The idea of giving a medal to each man who enters the service from Licking County, appeals to me. It will be a just recognition of a patriotic act and will be making an heirloom for future generations. I would commend your efforts in this direction. Elmer W. Jordan.

Editor of The Advocate: The suggestion in your valuable paper yesterday that a medal be

awarded all men entering the service from Licking county should receive the hearty endorsement of every citizen. We should show our appreciation of the brave boys who will be fighting for home and country. Charles D. Lake.

Editor of The Advocate: The idea of presenting a medal to each one of the Licking County men who go into the government service at this time as outlined in The Advocate last night appeals to me and I will be glad to do anything I can to help. E. M. Baugher.

Editor of The Advocate: I was deeply impressed by the editorial appearing in your paper of last evening, the 23d inst., proposing to present to each man going forth to service in the army or navy from Licking county, a suitable badge, to be presented by the citizens of Newark when he leaves the confines of the county, his family, and his friends behind.

I say deeply impressed for the reason that I well know what this means as, after nine years' service, I, too, starting out in the Spanish-American War in 1898, realized all the thrills and all the heartaches which come to a boy when the actual moment of departure has arrived. I do not know of anything which will reach the inner recesses of a boy's heart, when this moment of starting comes, than to have and to take with him, as a memento of admiration and appreciation, a small, well selected and appropriate emblem, either to wear or to carry with him through the days of unknown trials and triumphs which are bound to come, and when, if he is so blessed, he returns it would be prized all the more. W. W. Gard.

Editor of The Advocate: I am very much in favor of your suggestion made last night to furnish a distinctive badge to Licking county boys who will serve their country in the present need. Think it a good plan to make the contribution ten or 25 cents rather than an unlimited amount. It will be a splendid sentiment, to show these boys, even in this small way, that the county appreciates the sacrifices they will make. Walter C. Metz.

MILLION ENGLISH WOMEN SERVING IN MEN'S PLACES

London, May 7.—The number of women who are acting directly as substitutes for men in field, office and workshop has now passed the million mark, according to figures printed by the Board of Trade Labor Gazette. Allowing for displacements from other industries and domestic services, it is estimated that 800,000 women have gone out to work who did not do so before the war. Women have been substituted for men in various kinds of employment as follows: Industries, including controlled firms but excluding all kinds of government establishments, 376,000. Government works, including arsenals, dock yards and national shell filling and projectile factories, 139,000. Agriculture in Great Britain, 23,000. Transport, 62,000. Finance and banking, 42,000. Commerce, 278,000. Professions, 17,000. Hotels, theatres, etc., 31,000. Civil service, 73,000. Local government 40,000. The total is 1,071,000. The importance of women in the affairs of the church of England has been emphasized by the result of the annual spring elections to church vestries. More than three times as many women have been appointed wardens as ever before due of course to the exodus in villages of men in the nation's service.

SLAV DECLARATION IS DISAPPOINTING TO GERMAN HOPES

(Associated Press Telegram) Amsterdam, May 24, via London. The Socialist newspaper Vorwaerts of Berlin says that the recent statements of Premier Lvoff and Foreign Minister Tsereshtenko of Russia, expressing determination to continue the war with the country's allies, are a great disappointment to those in Germany who expected a separate peace quickly with revolutionary Russia. The Vorwaerts says Germany's policy is not dictated by the Pan-Germans and that the statements of the Russian ministers would never have been made had Chancellor von Bethmann-Hollweg replied fully and satisfactorily to the interpellation of the Social Democrats regarding war aims and said that the desire of Austria and Russia were also those of the German government.
